2020 LIST OF COVERED DRUGS (FORMULARY)

Enrolling in this health plan does not guarantee you can see a particular provider on this list. If you want to make sure, call that provider to ask if he or she is still part of this health plan. Also ask if he or she is accepting new patients. This health plan may not cover all your health care costs. Read your contract or *Member Handbook* carefully to find out what is covered.

American Indians can continue or begin to use tribal and Indian Health Services (IHS) clinics. We will not require prior approval or impose any conditions for you to get services at these clinics. For elders age 65 years and older this includes Elderly Waiver (EW) services accessed through the tribe. If a doctor or other provider in a tribal or IHS clinic refers you to a provider in our network, we will not require you to see your primary care provider prior to the referral.

2020 MSHO *List of Covered Drugs* (Formulary)

Introduction

This document is called the *List of Covered Drugs* (also known as the Drug List). It tells you which prescription drugs and over-the-counter (OTC) drugs and items are covered by SecureBlue. The Drug List also tells you if there are any special rules or restrictions on any drugs covered by SecureBlue. Key terms and their definitions appear in the last chapter of the *Member Handbook*.

B. Frequently Asked Questions (FAQ)

Find answers to questions you have about this *List of Covered Drugs*. You can read all of the FAQ to learn more or look for a question and answer.

B1. What prescription drugs are on the *List of Covered Drugs*? (We call the *List of Covered Drugs* the “Drug List” for short.)

The drugs on the Drug List in Section C, that starts on page x, are the drugs covered by SecureBlue. These drugs are available at pharmacies within our network. A pharmacy is in our network if we have an agreement with them to work with us and provide you services. We refer to these pharmacies as “network pharmacies.”

- SecureBlue will cover all medically necessary drugs on the Drug List if:
 - your doctor or other prescriber says you need them to get better or stay healthy, **and**
 - you fill the prescription at a SecureBlue network pharmacy.
- SecureBlue may have additional steps to access certain drugs. See question B4 for more information.

You can also see an up-to-date list of drugs we cover on our website at bluecrossmn.com/secureblue or call Member Services at the number listed at the bottom of this page.

B2. Does the Drug List ever change?

Yes, and SecureBlue must follow Medicare and Medicaid rules when making changes. We may add or remove drugs on the Drug List during the year.

We may also change our rules about drugs. For example, we could:

- Decide to require or not require prior authorization for a drug. (Prior authorization is permission from SecureBlue before you can get a drug.)
- Add or change the amount of a drug you can get (called quantity limits).
- Add or change step therapy restrictions on a drug. (Step therapy means you must try one drug before we will cover another drug.)

For more information on these drug rules, see question B4.

If you have questions, please call SecureBlue Member Services at 1-888-740-6013, TTY: 711, 8 a.m. to 8 p.m., seven days a week (except Thanksgiving and Christmas) from October 1 through March 31, and Monday to Friday (except holidays) from April 1 through September 30. The call is free. **For more information**, visit bluecrossmn.com/secureblue.

If you are taking a drug that is covered at the **beginning** of the year, we will generally not remove or change coverage of that drug **during the rest of the year** unless:

- a new, cheaper drug comes on the market that works as well as a drug on the Drug List now, **or**
- we learn that a drug is not safe, **or**
- a drug is removed from the market.

Questions B3 and B6 have more information on what happens when the Drug List changes.

- You can always check SecureBlue's current Drug List online at bluecrossmn.com/secureblue.
- You can also call Member Services at the number listed at the bottom of this page to check the current Drug List.

B3. What happens when there is a change to the Drug List?

Some changes to the Drug List will happen **immediately**. For example:

- **A new generic drug becomes available.** Sometimes, a new generic drug comes on the market that works as well as a brand name drug on the Drug List now. When that happens, we may remove the brand name drug and add the new generic drug, but your cost for the new drug will stay the same or will be lower. When we add the new generic drug, we may also decide to keep the brand name drug on the list but change its coverage rules or limits.
 - We may not tell you before we make this change, but we will send you information about the specific change we made once it happens.
 - You or your provider can ask for an exception from these changes. We will send you a notice with the steps you can take to ask for an exception. Please see questions B10-B12 for more information on exceptions.
- **A drug is taken off the market.** If the Food and Drug Administration (FDA) says a drug you are taking is not safe or the drug's manufacturer takes a drug off the market, we will take it off the Drug List. If you are taking the drug, we will let you know. Please contact your primary care physician to discuss this change.

We may make other changes that affect the drugs you take. We will tell you in advance about these other changes to the Drug List. These changes might happen if:

- The FDA provides new guidance or there are new clinical guidelines about a drug.

If you have questions, please call SecureBlue Member Services at 1-888-740-6013, TTY: 711, 8 a.m. to 8 p.m., seven days a week (except Thanksgiving and Christmas) from October 1 through March 31, and Monday to Friday (except holidays) from April 1 through September 30. The call is free. **For more information**, visit bluecrossmn.com/secureblue.

- We add a generic drug that is not new to the market **and**
 - Replace a brand name drug currently on the Drug List **or**
 - Change the coverage rules or limits for the brand name drug.

When these changes happen, we will

- Tell you at least 30 days before we make the change to the Drug List **or**
- Let you know and give you a 31-day supply of the drug after you ask for a refill.

This will give you time to talk to your doctor or other prescriber. He or she can help you decide

- If there is a similar drug on the Drug List you can take instead or
- Whether to ask for an exception from these changes. Please see questions B10-B12 for more information about exceptions.

B4. Are there any restrictions or limits on drug coverage or any required actions to take to get certain drugs?

Yes, some drugs have coverage rules or have limits on the amount you can get. In some cases you, your doctor, or other prescriber must do something before you can get the drug. For example:

- **Prior authorization:** For some drugs, you, your doctor, or other prescriber must get authorization from SecureBlue before you fill your prescription. Prior authorization means an approval from SecureBlue to seek services outside of our network or to get services not routinely covered by our network **before** you get the services. Prior authorization is different from a referral. SecureBlue may not cover the drug if you do not get authorization.
- **Quantity limits:** Sometimes SecureBlue limits the amount of a drug you can get.
- **Step therapy:** Sometimes SecureBlue requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your doctor or other prescriber thinks the first drug doesn't work for you, then we will cover the second.

You can find out if your drug has any additional requirements or limits by looking in the table in Section C1 that starts on page x. You can also get more information by visiting our website at bluecrossmn.com/secureblue. We have posted online documents that explain our prior authorization restriction and step therapy restrictions. You may also ask us to send you a copy.

You can ask for an exception to these limits. You should talk to your doctor or other prescriber. He or she can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception. Please see questions B10-B12 for more information about exceptions.

If you have questions, please call SecureBlue Member Services at 1-888-740-6013, TTY: 711, 8 a.m. to 8 p.m., seven days a week (except Thanksgiving and Christmas) from October 1 through March 31, and Monday to Friday (except holidays) from April 1 through September 30. The call is free. **For more information**, visit bluecrossmn.com/secureblue.

B5. How will you know if the drug you want has limits or if there are any actions required to get the drug?

The Drug List in Section C1, that starts on page x, has a column labeled “Necessary actions, restrictions, or limits on use.” Please see question B4 for more information about restrictions, limits, or actions to take.

B6. What happens if we change our rules about how we cover some drugs (for example, prior authorization, quantity limits, and/or step therapy restrictions)?

In some cases, we will tell you in advance if we add or change prior authorization, quantity limits, and/or step therapy restrictions on a drug. See question B3 for more information about this advance notice and situations where we may not be able to tell you in advance when our rules about drugs on the Drug List change.

B7. How can you find a drug on the Drug List?

There are two ways to find a drug:

- You can search alphabetically (if you know how to spell the drug), **or**
- You can search by drug type.

To search **alphabetically**, go to the Index of Covered Drugs section. You can find it on page 133. The Index of Covered Drugs is an alphabetical list of all of the drugs included in the Drug List. Brand name drugs, generic drugs, and over-the-counter (OTC) drugs are listed in the index.

To search **by drug type**, find the section labeled “List of Drugs by Drug Type” on page x. The drugs in this section are grouped into categories by type. For example, if you are taking a medicine for migraines, you should look in the “Antimigraine Agents” category. That is where you will find drugs that treat migraines.

B8. What if the drug you want to take is not on the Drug List?

If you don’t see your drug on the Drug List, call Member Services at the number listed at the bottom of this page and ask about it. If you learn that SecureBlue will not cover the drug, you can do one of these things:

- Ask Member Services for a list of drugs like the one you want to take. Then show the list to your doctor or other prescriber. He or she can prescribe a drug on the Drug List that is like the one you want to take. **Or**
- You can ask the health plan to make an exception to cover your drug. See questions B10-B12 for more information about exceptions.

If you have questions, please call SecureBlue Member Services at 1-888-740-6013, TTY: 711, 8 a.m. to 8 p.m., seven days a week (except Thanksgiving and Christmas) from October 1 through March 31, and Monday to Friday (except holidays) from April 1 through September 30. The call is free. **For more information**, visit bluecrossmn.com/secureblue.

B9. What if you are a new SecureBlue member and can't find your drug on the Drug List or have a problem getting your drug?

We can help. We may cover a temporary 31-day supply of your drug during the first 90 days you are a member of SecureBlue. This will give you time to talk to your doctor or other prescriber. He or she can help you decide if there is a similar drug on the Drug List you can take instead, or whether to ask for an exception.

If your prescription is written for fewer days, we will allow multiple refills to provide up to a maximum of 31 days of medication.

We will cover a 31-day supply of your drug if:

- you are taking a drug that is not on our Drug List, **or**
- health plan rules do not let you get the amount ordered by your prescriber, **or**
- the drug requires prior authorization by SecureBlue, **or**
- you are taking a drug that is part of a step therapy restriction.

If you are in a nursing home or other long-term care facility and need a drug that is not on the Drug List or if you cannot easily get the drug you need, we can help. If you have been in the plan for more than 90 days, live in a long-term care facility, and need a supply right away:

- We will cover one 31-day supply of the drug you need (unless you have a prescription for fewer days), whether or not you are a new SecureBlue member.
- This is in addition to the temporary supply during the first 90 days you are a member of SecureBlue.

Circumstances exist in which unplanned transitions for current members could arise and in which prescribed drug regimens may not be on the formulary. These circumstances usually involve level of care changes in which a member is changing from one treatment setting to another. For these unplanned transitions, you must use our exceptions and appeals process. Coverage determinations and redeterminations will be processed as expeditiously as your health condition requires.

In order to prevent a temporary gap in care when a member is discharged to go home, members are permitted to have a full outpatient supply available to continue therapy once their limited supply provided at discharge is exhausted. This outpatient supply is available in advance of discharge from a Part A stay.

When a member is admitted to or discharged from a long-term care facility, he or she does not have access to the remainder of the previously dispensed prescription. We will ensure you have a refill upon admission or discharge. A one-time override of the "refill too soon" edits is provided for each medication which would be impacted due to a member being admitted to or discharged from a long-

If you have questions, please call SecureBlue Member Services at 1-888-740-6013, TTY: 711, 8 a.m. to 8 p.m., seven days a week (except Thanksgiving and Christmas) from October 1 through March 31, and Monday to Friday (except holidays) from April 1 through September 30. The call is free. **For more information**, visit bluecrossmn.com/secureblue.

term care facility. Early refill edits are not used to limit appropriate and necessary access to a member's Part D benefit, and such members are allowed to access a refill upon admission or discharge.

To ask for a temporary supply, call Member Services at the number at the bottom of this page.

During the time when you are getting a temporary supply of a drug, you should talk with your provider to decide what to do when your temporary supply runs out. You can either switch to a different drug covered by the plan or ask the plan to make an exception for you and cover your current drug. The sections below tell you more about these options.

B10. Can you ask for an exception to cover your drug?

Yes. You can ask SecureBlue to make an exception to cover a drug that is not on the Drug List.

You can also ask us to change the rules on your drug.

- For example, SecureBlue may limit the amount of a drug we will cover. If your drug has a limit, you can ask us to change the limit and cover more.
- Other examples: You can ask us to drop step therapy restrictions or prior authorization requirements.

B11. How can you ask for an exception?

To ask for an exception, call your care coordinator. Your care coordinator will work with you and your provider to help you ask for an exception. You can also read Chapter 9 of the *Member Handbook* to learn more about exceptions.

B12. How long does it take to get an exception?

First, we must get a statement from your prescriber supporting your request for an exception. After we get the statement, we will give you a decision on your exception request within 72 hours.

If you or your prescriber think your health may be harmed if you have to wait 72 hours for a decision, you can ask for an expedited exception. This is a faster decision. If your prescriber supports your request, we will give you a decision within 24 hours of getting your prescriber's supporting statement.

B13. What are generic drugs?

Generic drugs are made up of the same active ingredients as brand name drugs. They usually cost less than the brand name drug and usually don't have well-known names. Generic drugs are approved by the Food and Drug Administration (FDA).

SecureBlue covers both brand name drugs and generic drugs.

If you have questions, please call SecureBlue Member Services at 1-888-740-6013, TTY: 711, 8 a.m. to 8 p.m., seven days a week (except Thanksgiving and Christmas) from October 1 through March 31, and Monday to Friday (except holidays) from April 1 through September 30. The call is free. **For more information**, visit bluecrossmn.com/secureblue.

B14. What are over-the-counter (OTC) drugs?

OTC stands for “over-the-counter.” SecureBlue offers some OTC drugs through Medical Assistance (Medicaid) at no cost to you. You need a prescription for OTC drugs to be covered. These OTC drugs are listed in this Drug List.

B15. Does SecureBlue cover non-drug OTC products?

SecureBlue covers some non-drug OTC products through Medical Assistance (Medicaid). These non-drug OTC products are listed in this Drug List.

Examples of non-drug OTC products include elastic bandages and supports.

B16. Can I get my drugs through Long-Term Supply?

- Long-Term Supply. We offer a way to get a long-term supply of “maintenance” drugs on our plan’s Drug List. (Maintenance drugs are drugs that you take on a regular basis, for a chronic or long-term medical condition.)

For more information about getting drugs through long-term supply, please call Member Services at the number listed at the bottom of this page.

B17. What is your copay?

You can read the SecureBlue Drug List to learn about the copay for each drug.

A copay is an amount you may be required to pay as your share of the cost of a prescription drug. A copay is usually a set amount, rather than a percentage. For example, you might pay \$1 or \$6 for a prescription drug.

SecureBlue members living in nursing homes or other long-term care facilities will have no copays. Some members getting long-term care in the community will also have no copays.

The Drug List includes copays listed by tiers.

- Tier 1 Generic drugs have the lowest copay. The copay is from \$0 to \$3.60, depending on your income and level of Medical Assistance (Medicaid) eligibility.
- Tier 1 Brand drugs have a higher copay. The copay is from \$0 to \$8.95, depending on your income and level of Medical Assistance (Medicaid) eligibility.
- OTCs have a \$0 copay.

If you have questions, call Member Services at the number at the bottom of this page. We can help you understand what your copays will be.

If you have questions, please call SecureBlue Member Services at 1-888-740-6013, TTY: 711, 8 a.m. to 8 p.m., seven days a week (except Thanksgiving and Christmas) from October 1 through March 31, and Monday to Friday (except holidays) from April 1 through September 30. The call is free. **For more information**, visit bluecrossmn.com/secureblue.

C. Overview of the *List of Covered Drugs*

The *List of Covered Drugs* gives you information about the drugs covered by SecureBlue. If you have trouble finding your drug in the list, turn to the Index of Covered Drugs that begins on page 133. The index alphabetically lists all drugs covered by SecureBlue.

C1. List of Drugs by Drug Type

The drugs in this section are grouped into categories by type. For example, if you are taking a medicine for migraines, you should look in the “Antimigraine Agents” category. That is where you will find drugs that treat migraines.

Here are the meanings of the codes used in the “Necessary actions, restrictions, or limits on uses” column:

1 = Generic and Brand Drugs

BD = Drugs that may be covered under Medicare Part B or Part D depending on the circumstance. These drugs require prior authorization to determine coverage under Part B or Part D. Information may need to be provided that describes the use or the place where the drug is received to determine coverage.

PA = Prior Authorization

QL = Quantity Limits

ST = Step Therapy

* = Limited Distribution Drug. This prescription may be available only at certain pharmacies. For more information consult your *Provider and Pharmacy Directory* or call Prime Therapeutics Member Services at 1-888-877-6424, 24 hours a day, 7 days a week. TTY users should call 711. This call is free.

= High Risk Medication (HRM). Medicine that may be unsafe in patients greater than 65 years of age. Our formulary does include coverage for some of these drugs, but alternatives may be found in lower copay tiers. Please discuss with your doctor if there are alternatives to these medications that would be appropriate for you to use.

^ 90-day supply allowed

The first column of the table lists the name of the drug. Generic drugs are listed in lower-case italics (e.g., *metformin*), brand name drugs are capitalized (e.g., LANTUS), and OTC drugs and products are listed in lower case (e.g., omeprazole). The information in the “Necessary actions, restrictions, or limits on use” column tells you if SecureBlue has any rules for covering your drug.

If you have questions, please call SecureBlue Member Services at 1-888-740-6013, TTY: 711, 8 a.m. to 8 p.m., seven days a week (except Thanksgiving and Christmas) from October 1 through March 31, and Monday to Friday (except holidays) from April 1 through September 30. The call is free. **For more information**, visit bluecrossmn.com/secureblue.
