Update: Medical Drug Update for Drug Golodirsen (Vyondys 53)

Provider Quick Point [QP40-19](#), that was published on May 8, 2019 is being rescinded because the Food and Drug Administration (FDA) did **not** approve the drug Golodirsen for the treatment of Duchenne Muscular Dystrophy. Therefore, Golodirsen will be removed from medical policy II-174 and the Medical Drug Evaluation Process List.
