Commercial Pharmacy Benefit Update – New Drug-Related Quantity Limit (QL) Criteria: Stromectol® (ivermectin)

Effective October 1, 2021 Blue Cross and Blue Shield of Minnesota and Blue Plus (Blue Cross) will require a QL for Stromectol® (ivermectin) under the pharmacy benefit plan.

The intent of the Stromectol® (ivermectin) QL program is to promote appropriate selection of patients for treatment according to product labeling and/or clinical guidelines and/or clinical studies. Both brand Stromectol® and its generic equivalent, ivermectin are subject to the QL program.

As stewards of healthcare expenditures for our subscribers, we are charged with ensuring they receive appropriate, quality care while also managing overall costs. The intent of the QL program ensures that the health service or drug being proposed is medically necessary, and reflective of evidence-based medicine and industry standards. This process helps us manage the cost and quality of care appropriately for our members.

Target Agent	Quantity limit
