Reminder: Blue Cross Vision Plans with the Davis Vision Network

In January 2017, Blue Cross and Blue Shield of Minnesota (Blue Cross) launched Blue Cross Vision plans to Individuals and group clients. The vision plans are independent of Blue Cross health plans and are separate from benefits associated with a health plan. Blue Cross Vision plans have a separate vision ID card from the health plan.

Blue Cross has received concerns from members advising that they have been turned away from receiving vision services and told they do not have coverage. It is imperative that vision providers do not turn away patients. **When a patient presents a Blue Cross Vision ID card please review the back of the ID card for information on eligibility and benefits.**

Blue Cross has partnered with Davis Vision to offer plans which feature the Davis Vision Network. New plans may be added without notification and plan names may change, therefore it is important to always check eligibility.

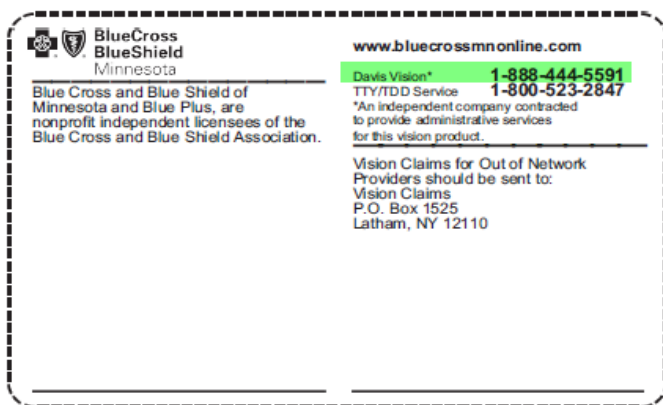

Below is a sample of a Blue Cross Vision ID card:

The image shows a sample of a Blue Cross Vision ID card. At the top left is the BlueCross BlueShield logo. Below it, the card displays the following information:

Name	GRP	XXXXXXXX
ELIZABETH SAMPLENAME		
ID #		
000000000000		
Svc Type	VISION	Plan Type
		XXX

A red circle highlights the word "VISION" in the Svc Type field. A red arrow points from this circle to a small icon of a pair of glasses in the bottom right corner of the card. A red text box with arrows pointing to the "VISION" field and the glasses icon contains the text: "Vision" and this symbol identifies this as your vision member ID card.

The image shows the back of a Blue Cross Vision ID card. At the top left is the BlueCross BlueShield Minnesota logo. Below it, the card displays the following information:
