Multiple Medicaid Coverages Listed on the Same Claim

Blue Cross and Blue Shield of Minnesota and Blue Plus (Blue Cross) recently implemented a claim edit to identify and reject claims where more than one Medicaid payer is listed on the same claim.

The claims impacted by the edit are for Blue Cross subscribers who have coverage through a Minnesota Health Care Program (MHCP) including Families & Children (previously known as Prepaid Medical Assistance Program), MinnesotaCare (MNCare), SecureBlue (MSHO) and Minnesota Senior Care Plus (MSC+). The claims include, for example, “PMAP” as the primary payer and “MN Medicaid” as the secondary payer. An individual cannot be covered under more than one Medicaid Program at the same time, this includes coverage in two different states at the same time. Submitting multiple Medicaid coverages on the same claim represents an invalid claim submission.
