New Service Type Options for Inpatient Admission Notifications on Availity Portal

On January 30, 2020, two new Service Type options will be available for admission notifications submitted through the Authorizations tool within the Availity portal:

- Labor and Delivery (Vaginal)
- Labor and Delivery (C-Section)

These service types should be used for labor and delivery admissions to differentiate them from other types of admissions.

Products Impacted

This information only applies to commercial and Medicare lines of business.
