Pharmacy Benefit Update – New Drug-Related Prior Authorization (PA) with Quantity Limit (QL) Criteria: Orilissa™ (elagolix)

Effective April 1, 2019, Blue Cross and Blue Shield of Minnesota and Blue Plus (Blue Cross) will require PA with QL for Orilissa™ (elagolix).

The intent of the Orilissa™ (elagolix) PA with QL program is to encourage appropriate selection of patients for treatment according to product labeling and/or clinical studies and/or guidelines.

As stewards of healthcare expenditures for our subscribers, we are charged with ensuring they receive appropriate, quality care while also maintaining overall costs. The prior authorization process ensures that the health service or drug being proposed is medically necessary, and reflective of evidence-based medicine and industry standards, prior to treatment. This process helps us manage the cost and quality of care appropriately for our members.
