### **Cost & Quality Requirements: Quick Access to Important Information for Providers**

Blue Cross and Blue Shield of Minnesota and Blue Plus (Blue Cross) is committed to advancing the Triple Aim model, as defined by the Institute for Health Care Improvement, which calls on us to help improve health care quality and population health, while reducing overall costs. That means doing what we can to ensure the highest quality care at the lowest possible cost for our members. To that end, we've implemented several initiatives aimed at accomplishing that goal in a more sustainable way.

For quick access to detailed information about these initiatives, please visit the new page on the Blue Cross provider website: [providers.bluecrossmn.com](http://providers.bluecrossmn.com). Under News & Updates, click on [Cost and quality requirements](#). We'll continue to update this page as new initiatives are implemented.

Another option for accessing this page is to simply use the custom URL:

[BlueCrossMN.com/ProviderCostQuality](http://BlueCrossMN.com/ProviderCostQuality)

#### **Questions?**

If you have additional questions, please contact provider services at **(651) 662-5200** or **1-800-262-0820**.
