Update to Attachment B: Definition of outpatient health services categories

Included with your 2014 Institutional Provider Service Agreement (Agreement) with Blue Cross and Blue Shield of Minnesota is a document entitled "Blue Cross and Blue Shield of Minnesota: Attachment B: Definition of Outpatient Health Service Categories."

As stipulated in that document, we are notifying you of new codes that have been added and to which outpatient health service category codes have been assigned. Specifically, the Agreement states: "Provider Bulletins will inform providers when new codes are released by the Centers for Medicare & Medicaid Services (CMS) and the American Medical Association (AMA) during the 2014 calendar year. New codes will be added to the pertinent categories as updates are published and received. Any CPT or HCPCS codes that have not been assigned to a specific category will be attributed to the Non-emergency services Category VIII."

Please note that not all hospitals are affected by this change. To verify if your hospital is affected, refer to your Institutional Provider Service Agreement with Blue Cross.

The following HCPCS codes are effective January 1, 2014.
