

# PROVIDER BULLETIN

## Provider information

December 11, 2012

### January 2013 HCPCS code updates

Effective with dates of service on or after January 1, 2013, Blue Cross and Blue Shield of Minnesota and Blue Plus (Blue Cross) will accept 2013 HCPCS procedure code additions and terminology changes. This includes Level I (CPT<sup>®</sup> procedure codes) and Level II (alphanumeric) codes.

Because there is no grace period for discontinued codes, if a discontinued code is submitted with a date of service of January 1, 2013 or after, the claim will be rejected. Likewise, added codes will be rejected if submitted with a date of service before January 1, 2013.

#### Code list

The 2013 HCPCS added, revised and discontinued code list will not be published with this bulletin, nor are CPT and HCPCS manuals available from Blue Cross. CPT and HCPCS manuals are available from several sources such as the American Medical Association or major bookstores.

#### Code edits

Blue Cross' coding edits are updated at minimum annually, to incorporate new codes, code definition changes and edit rule changes. Potential edits are currently under review. Once implemented, all claims submitted after the implementation date of the update, regardless of service date, will be processed according to the updated version or the instituted edit. Early adopted edits will be communicated via a Quick Points or Provider Press.

#### Coding requirements reminder

All coding and reimbursement is subject to changes, updates or other requirements of coding rules and guidelines. All codes are subject to federal HIPAA rules, and in the case of medical code sets (for example, HCPCS, CPT, ICD-9-CM), only valid codes for the date of service may be submitted or accepted.

#### Questions?

If you have questions, please contact provider services at **(651) 662-5200** or toll free at **1-800-262-0820**.
