## MN Clinic Fax Referral Program name change

Effective March 1, 2012 the MN Clinic Fax Referral Program will change its name to the Call it Quits Referral Program, which is supported by the Minnesota Tobacco Quitlines Collaborative.

The referral program is a way providers can easily refer patients to existing Minnesota tobacco quitline services via a single fax form.

This program is supported by a collaboration of seven of Minnesota's major health plans (Blue Cross and Blue Shield of Minnesota, HealthPartners, Medica, Metropolitan Health Plan, MMSI, PreferredOne and UCare) and ClearWayMinnesota (operator of the QUITPLAN Helpline, serving uninsured and underinsured people who live or work in Minnesota).
