Minnesota Health Care Programs (MHCP) vaccines update

This update applies only to billing for services to MHCP members.

Due to a change in the DHS fee schedule, as of September 1, 2010, Blue Plus no longer allows the use of code 90718 following the direction set forth by the Department of Human Services (DHS). See DHS provider communication below:

DHS Provider Communication

Immunization & Vaccines

Effective September 1, 2010, MHCP no longer covers tetanus and diphtheria toxoids vaccine code (90718). Use the preservative-free tetanus and diphtheria toxoids vaccine code (90714) for both preservative and preservative-free vaccines billing.

Questions

If you have questions, please contact provider services at **(651) 662-5200** or toll free at **1-800-262-0820**.
