### **Billing Oxygen Contents in Conjunction with the Rental of the Stationary and/or Portable Machines**

Rental of the oxygen stationary systems (E0424-gas and E0439-liquid) includes container, contents, regulator, flowmeter, humidifier, nebulizer, cannula or mask, and tubing. Oxygen contents should not be billed separately because it is included in the rental amount for the system. If a subscriber is renting both the stationary **and** portable system (E0431-gas and E0434-liquid), the same guidelines apply. The only time oxygen contents should be submitted is when a subscriber owns an oxygen system, or if the subscriber is only renting a portable oxygen system.
