Provider information

October 17, 2013

ICD-10 survey

The information in this Quick Points replaces Quick Points 21-13 entitled “ICD-10 survey” that was issued on October 10, 2013. The purpose of this revision is to allow additional time for completion of the survey, due to The Minnesota ICD-10 Collaborative voting to extend the survey end date to October 31, 2013.

We are one year away from ICD-10. Will your practice be ready? Please let us know by completing the short survey at the other end of this link: <https://www.surveymonkey.com/s/W8FJTBR>. Surveys must be completed by October 31, 2013.

The Minnesota ICD-10 Collaborative* has asked its payer members to send this survey to all of their contracted provider organizations. Thus, **YOU MAY RECEIVE MULTIPLE COPIES OF THIS SURVEY.** We apologize in advance for this “over communication,” but we want as many Minnesota provider practices as possible to have the opportunity to respond. **PLEASE RESPOND ONLY ONCE.**

The survey should require no more than five minutes to complete. We thank you in advance for your participation!

*The Minnesota ICD-10 Collaborative is a consortium of providers and payers brought together to identify and evaluate opportunities to minimize the disruption in health-care billing, reporting, and related processes for a variety of stakeholders in the health-care industry in connection with the ICD-10 conversion.
