

# PROVIDER QUICK POINTS

## Provider information

This Quick Points was revised on 10/17/13. See Quick Points QP21R1-13 for the revision.

October 10, 2013

### ICD-10 survey

We are one year away from ICD-10. Will your practice be ready? Please let us know by completing the short survey at the other end of this link: <https://www.surveymonkey.com/s/W8FJTBR>. Surveys must be completed by October 18, 2013.

The Minnesota ICD-10 Collaborative\* has asked its payer members to send this survey to all of their contracted provider organizations. Thus, **YOU MAY RECEIVE MULTIPLE COPIES OF THIS SURVEY.** We apologize in advance for this “over communication,” but we want as many Minnesota provider practices as possible to have the opportunity to respond. **PLEASE RESPOND ONLY ONCE.**

The survey should require no more than five minutes to complete. We thank you in advance for your participation!

\*The Minnesota ICD-10 Collaborative is a consortium of providers and payers brought together to identify and evaluate opportunities to minimize the disruption in health-care billing, reporting, and related processes for a variety of stakeholders in the health-care industry in connection with the ICD-10 conversion.
