November 11, 2011

SecureBlueSM (HMO SNP) - HIPAA 5010 835 transactions and DRG

Blue Cross and Blue Shield of Minnesota and Blue Plus are nearing their completion of the conversion to the HIPAA 5010 Health Care Claim Payment Advice (835).

This document contains important information that you will need to know related to this conversion. Please share it with the person(s) responsible for receiving your electronic remittance advice.

We have recently identified that a very small number of SecureBlue (HMO SNP) claims, within a HIPAA 5010 835 transaction, will not have the Diagnosis Related Group code (DRG) and the DRG weight. All SecureBlue (HMO SNP) plans can be identified by group numbers that begin with "PP2", located within the 835 transaction in the Other Claim Related Identification information.

Please be assured we are diligently working on a resolution.
