Contract addendum for Care Coordination and Targeted Case Management

Blue Cross and Blue Shield of Minnesota and Blue Plus recently issued an addendum for Care Coordination and Targeted Case Management.

Add the following definition to Article I: Definitions:

"Care Management for SNBC Enrollees" means the assignment of an individual that is designed to ensure access to and to integrate the delivery of Medicare and Medicaid Preventive, primary, acute, post acute, rehabilitative, specialty and pharmacy services.

An inapplicable reference was also made to the Minnesota Health Care Programs Chapter 30 Child Welfare-Targeted Case Management. You may simply disregard this reference.

Questions?

If you have any questions regarding these changes, please contact provider service at **(651) 662-5200** or **1-800-262-0820**.
