## Update on chemical dependency halfway house and extended care services notification process

On July 28, 2008, Provider Bulletin P16-08 was issued advising providers that effective July 1, 2008, Blue Plus is responsible for reimbursing providers for extended care and halfway house services for our Minnesota Health Care Programs members. *This applies only to the government programs groups listed on the following page.*

### Process to report services

This Quick Points provides updated information on the process to report services provided to affected members and the information that is needed by Blue Plus.

A new form has been created and an updated fax number is provided to streamline the notification process.

### Admission notification

For Blue Plus members in the affected groups, please notify Blue Plus of the member's extended care or halfway house services by faxing a copy of the following forms to **(651) 662-0854**:

- Chemical Dependency Notification of Residential Admission Form
- Rule 25 Assessment and Placement Summary

The Chemical Dependency Notification of Residential Admission Form is available at **bluecrossmn.com**. Blue Plus will notify you that the information has been received.

### Discharge notification

Please notify Blue Plus of a discharge from extended care or halfway house services by calling **(651) 662-5270** or **1-800-528-0934**; prompts will direct you to the correct option to leave the discharge date. You may also fax discharge information to **(651) 662-3314**. When reporting a discharge, please provide the following information:

- Member name and ID #
- Blue Plus case number provided by Blue Plus
- Provider name, contact name and contact phone number
- Discharge date

Please route this information to other interested staff.
