Common Carrier and Special Transportation Providers Billing Code for Parking Fees or Tolls

Effective November 1, 2015, Common Carrier and Special Transportation Providers should use A0170 when billing for required parking fees or tolls. Providers must retain a copy of the parking fee or toll receipt. The receipt must be maintained together with trip logs and all other claim detail and information for 10 years. The receipts are subject to audit and required to be produced for inspection upon request. Transportation Providers must submit the receipt with their claim for the date of service in which it occurred. Transportation Providers are still required to retain a copy of the receipt even if the original was submitted with the claim for the 10 year retention period.

Questions?

If you have questions, please contact provider services at **(651) 662-5200** or **1-800-262-0820**.
