Pharmacy - Site of Care Program for Injectable Medical Specialty Drugs

Effective November 1, 2016, Blue Cross and Blue Shield of Minnesota and Prime Therapeutics will launch a new program called **Site of Care** that is designed to support and educate subscribers receiving ongoing infused IV drug therapy.

Subscribers will be identified and selected to participate in the program after analysis of medical service claims. Subscribers will be contacted by Prime's nurse coordinators who will provide information on services and options available to them regarding where they could receive infusion services and sites that may reduce their out of pocket costs related to their drug infusion. As a result, subscribers may choose to select a different provider for infusion services.

Questions?

If you have questions, please contact provider services at **(651) 662-5200** or **1-800-262-0820**.
