### **New Drug-Related Prior Authorization (PA) with Quantity Limit (QL) Criteria: Bonjesta, Diclegis**

Effective February 1, 2018, Blue Cross and Blue Shield of Minnesota and Blue Plus (Blue Cross) will require PA with QL for Bonjesta (doxylamine/pyridoxine ER) and Diclegis (doxylamine/ pyridoxine delayed release). The intent of the program is to ensure appropriate use based on FDA labeling, guidelines, or clinical studies. The program encourages the trial of the ingredients within the target agent together as separate dosage forms.

As stewards of healthcare expenditures for our subscribers, we are charged with ensuring the highest quality, evidence based care. One method for doing so is through the PA process. The primary purpose of the PA process is to ensure that evidence based care is provided to our subscribers, driving quality, safety, and affordability.

#### **CoverMyMeds prior authorization request service**

As a reminder, CoverMyMeds (CMM) is a free service to providers which allows quick and easy submission of PA requests. Experience with CMM by other plans has demonstrated marked reductions in physician office call-backs regarding PA requests, after CMM is implemented. PA requests may also continue to be faxed to their review destination external to the CMM portal, as is the current practice.

You may access CMM at [www.covermymeds.com](http://www.covermymeds.com). Select Help (top right of the web page) to view FAQs and Support tutorials (3-5 minutes), including live online chat support to help you get started. You will need to open a CMM account to submit requests using the portal.
