Prior Authorization Look Up Tool

Providers should use the Prior Authorization Look Up Tool on the Availity Provider Portal to quickly determine if an authorization is required. By entering Member Group Number, Date of Service and Procedure Code, the tool will indicate whether an Authorization is required. If an Authorization is not required, the tool will allow the user to print the results for their records. If an Authorization is required, the user will move directly into the next field in Authorization application to complete the request.

This feature is accessible for lines of business managed by Blue Cross and will advise providers if Blue Cross or eviCore will review the request.

To access the Prior Authorization Look Up Tool:

1. Log in at **Availity.com/Essentials**
2. Select **Patient Registration**, choose **Authorization & Referrals**, then **Authorizations**
3. Select Payer **BCBSMN**, your Organization, Transaction Type **Outpatient** and you will be redirected to the Authorization Look Up Tool application

To submit a Prior Authorization (PA) Request to eviCore

Providers submit eviCore PA request via the free [Availity](#) provider portal. There is no cost to the provider for using the portal.

Instructions on how to utilize this portal are found on the Availity website. Providers should reference the eviCore clinical guideline criteria, submit prior authorization requests via Availity, and submit all applicable clinical documentation with the PA request. Failure to submit required information may result in review delays or denial of the request due to insufficient information.

Note: An approved PA does not guarantee coverage under a subscriber's benefit plan. Subscriber benefit plans vary in coverage and some plans may not provide coverage for certain services discussed in the medical policies.

If a provider does not obtain a required prior authorization before rendering services, Blue Cross will deny claims as provider liability for lack of prior authorization.
