Reminder: Self-Administered Drug Coverage for Medicare Members

The purpose of this notification is to remind providers that self-administered drugs listed in Centers for Medicare & Medicaid Services (CMS) medical policy article [A53022](#) are **excluded** from coverage under Medicare Part B. While subcutaneously administered drugs listed in the article will be denied payment under Part B as a benefit exclusion, coverage may be available for the self-administered drugs under a member's Part D pharmacy benefit.

Information about drugs not separately reimbursed or not covered under Part B for reasons other than "usually self-administered" can be found in Medicare Part A and Part B MAC publications available online at [cms.gov](https://www.cms.gov).

Questions?

If you have questions, please contact provider services at **(651) 662-5200** or **1-800-262-0820**.
