B. Background Information about SecureBlue's Network Providers

B1. Key terms

This section explains key terms you'll find in our *Provider and Pharmacy Directory*.

- **Providers** are health care professionals and support providers such as doctors, nurses, pharmacists, therapists, and other people who provide care and services. **Services** include medical care, long-term services and supports (LTSS), supplies, prescription drugs, equipment and other services.
 - The term providers also includes facilities such as hospitals, clinics, and other places that provide medical services, medical equipment, and long-term services and supports.
 - Providers that are a part of our plan's network are called **network providers**.
- **Network providers** have contracted with us to deliver services to members of our plan. Network providers participate in our plan. That means they accept members of our plan and provide services our plan covers. The providers in our network generally bill us directly for care they give you. When you use a network provider, you usually pay only your share of the cost for covered services.
- **A Primary Care Clinic (PCC)** is a provider who gives you routine health care. Your **Primary Care Clinic/PCC** will keep your medical records and get to know your health needs over time.

If you have questions, please call SecureBlue Member Services at 1-888-740-6013, TTY 711, 8 a.m. to 8 p.m., seven days a week (except Thanksgiving and Christmas) from October 1 through March 31, and Monday to Friday (except holidays) from April 1 through September 30.

The call is free. **For more information**, visit bluecrossmn.com/secureblue.

- **Specialists** are doctors who provide health care services for a specific disease or part of the body. There are many kinds of specialists. Here are a few examples:
 - Oncologists care for patients with cancer.
 - Cardiologists care for patients with heart conditions.
 - Orthopedists care for patients with certain bone, joint, or muscle conditions.
- You also have access to a **Care Coordinator**. A **Care Coordinator** helps you manage your medical providers and services.
 - Your **Collaborative Care Plan** is an ongoing action plan that addresses your healthcare needs. Your care coordinator will work with you to create a person-centered Care Plan that includes your healthcare goals and the resources, supports, and services you need to achieve them. Your Care Plan will be updated as your healthcare needs change.

B2. How to choose a Primary Care Clinic/PCC

You can get services from any provider who is in our network and accepting new members.

When you become a member of our plan, you will choose a Primary Care Clinic/PCC who is part of our plan network. This provider will be your Primary Care Clinic/PCC.

If you did not choose a Primary Care Clinic/PCC or would like to make a change to your Primary Care Clinic/PCC, refer to the list of clinics in Section E that starts on page 3 and choose a clinic:

- that you use now, **or**
- who has been recommended by someone you trust, **or**
- whose offices are easy for you to get to.
- If you want help in choosing a Primary Care Clinic/PCC, please call Member Services at the number at the bottom of this page.
- If you have questions about whether we will pay for any medical service or care that you want or need, call Member Services and ask **before** you get the service or care.

If you have questions, please call SecureBlue Member Services at 1-888-740-6013, TTY 711, 8 a.m. to 8 p.m., seven days a week (except Thanksgiving and Christmas) from October 1 through March 31, and Monday to Friday (except holidays) from April 1 through September 30. The call is free. **For more information**, visit bluecrossmn.com/secureblue.

B3. How to get long-term services and supports (LTSS)

You may be able to get long-term services and supports (LTSS), such as services provided by the Elderly Waiver (EW) program as a SecureBlue member. LTSS help people who need assistance to do everyday tasks like taking a bath, getting dressed, making food, and taking medicine. Most of these services are provided at your home or in your community but could be provided in a nursing home or hospital.

You must have a Long-Term Care Consultation (LTCC) done and be found to be eligible to get additional services or support. You can ask to have this assessment in your home, apartment, or facility where you live.

Your care coordinator will meet with you and your family to talk about your care needs if you call to ask for a visit.

Your care coordinator will give you information about community services, help you find services to stay in your home or community, and help you find services to move out of a nursing home or other facility.

If you need transition planning and coordination services to help you move to the community, you may be eligible to get Moving Home Minnesota (MHM) services. MHM services are separate from EW services, but you must be eligible for EW.

To find out more about these services, refer to your *Member Handbook*. Call Member Services at the number at the bottom of this page to get more information on how to access these services.

B4. How to access SecureBlue's network providers

You must get all of your covered services from providers within our network. If you use providers who are not in SecureBlue's network **(without prior authorization or approval from us), you will have to pay the bill.**

A **prior authorization** is an approval from SecureBlue before you can get a specific service, drug, or use an out-of-network provider. SecureBlue may not cover the service or drug if you don't get approval.

The exceptions to this rule are when you need urgent or emergency care or dialysis and cannot get to a provider in the plan, such as when you are away from home. You can also use providers outside the plan for other non-emergency services if SecureBlue gives you permission first.

If you have questions, please call SecureBlue Member Services at 1-888-740-6013, TTY 711, 8 a.m. to 8 p.m., seven days a week (except Thanksgiving and Christmas) from October 1 through March 31, and Monday to Friday (except holidays) from April 1 through September 30. The call is free. **For more information**, visit bluecrossmn.com/secureblue.

- You may change providers within the network at any time during the year. If you have been using one network provider, you do not have to keep using that same provider. You do not need to call Member Services to notify us of this change. Call the new provider and ask them to help you transfer your health care records.
- SecureBlue works with all the providers in our network to accommodate the needs of people with disabilities. If you need a provider and are not sure if they offer the accommodations you need, SecureBlue can help you. Talk to your care coordinator for assistance.

B5. How to find SecureBlue providers in your area

Providers in the SecureBlue network are listed in this directory in sections by type of provider. Examples are Primary Care Clinics/PCC, Hospitals, Nursing Homes, Chemical Dependency Providers and Dentists. To locate a provider, look in the section that contains the type of provider that you are seeking and then city (or city nearest you). If you cannot find a provider using the directory, our Member Services will help you locate one. Please contact Member Services at the number at the bottom of this page.

How to access out-of-network providers

SecureBlue covers certain health care services you get from out-of-network providers. These include: care for medical emergencies, urgently needed care and services that were originally denied but later overturned in an appeal. If an out-of-network provider asks you to pay for covered services that you get in these situations, please contact Member Services at the number at the bottom of this page. Member Services will assist in determining the appropriate action needed.

How to access specialty providers

SecureBlue makes it easy to use a specialist when you need to. That's because SecureBlue features an "open-access" provider network. Open access means Blue Plus will not require you to get a referral from your Primary Care Clinic/PCC when you need to use a network specialist. If you need to use a specialist, there are several ways to find one. You can ask your Primary Care Clinic/PCC for help. Or choose any specialist in our large network. For a list of doctors and specialists, see the provider listings in this book.

If you have questions, please call SecureBlue Member Services at 1-888-740-6013, TTY 711, 8 a.m. to 8 p.m., seven days a week (except Thanksgiving and Christmas) from October 1 through March 31, and Monday to Friday (except holidays) from April 1 through September 30. The call is free. **For more information**, visit bluecrossmn.com/secureblue.

For the most up-to-date list and for help finding a specialist, call Member Services. You can choose any doctor, provider, hospital, pharmacy or family planning agency to receive some services. These services are: family planning, diagnosis of infertility, testing and treatment of sexually transmitted diseases and testing for AIDS and HIV-related conditions.

You can get additional information on how to access specialty care by calling Member Services at the number at the bottom of this page.

How to get more information about personal care provider organizations (PCPO) and home care agencies

For a listing of PCPOs and home care agencies, please refer to the Personal Care Assistance (PCA) Agencies or Home Health Care Agencies section of the directory. You may also call Member Services at the phone number listed on the bottom of this page. Or contact your care coordinator and they will help arrange these services for you.

How to find a network pharmacy

The Pharmacy section that lists pharmacy providers is located after the Provider directory listing.

Please refer to the Pharmacy section to find an updated list of pharmacy providers. Or call Member Services at the number at the bottom of this page.

How to determine if a facility is accessible

Providers were asked to complete a questionnaire about accessibility in three areas: parking, entryways and other relevant spaces, and office exam rooms and equipment. Responses to the questionnaire are included in the provider listings.

If you need more information about access options, you can get information by calling Member Services at the number at the bottom of this page. This could include, but is not limited to, information such as availability of flexible hours or wheelchair access.

How to access Interpreter Services

Hearing and language interpreter services are available to help you get services. Oral interpretation can be given to you in your language. You may be able to get written information in your language. To get information about interpreter services or translation services, call Member Services at the phone number listed on the bottom of this page.

If you have questions, please call SecureBlue Member Services at 1-888-740-6013, TTY 711, 8 a.m. to 8 p.m., seven days a week (except Thanksgiving and Christmas) from October 1 through March 31, and Monday to Friday (except holidays) from April 1 through September 30. The call is free. **For more information**, visit bluecrossmn.com/secureblue.
