Submitting a PA Request when Applicable

- **Providers may submit PA requests for any treatment in the above table starting November 28, 2022.**
- Providers must check applicable Blue Cross policy and **attach all required clinical documentation** with the PA request. PA requests will be reviewed when patient-specific, relevant medical documentation has been submitted supporting the medical necessity of the service. Failure to submit required information may result in review delays or a denial of the request due to insufficient information to support medical necessity. If a provider does not obtain the required PA before rendering services, Blue Cross will deny claims as provider liability for lack of prior authorization.
- PA approval will be based on the Blue Cross policy criteria. To review Blue Cross criteria:
