

COMMERCIAL REIMBURSEMENT POLICY

Unlisted Procedure Code

Active

Policy Number: General Coding – 005
Policy Title: Unlisted Procedure Code
Section: General Coding
Effective Date: 08/01/23

Description

This policy addresses reimbursement for services that are submitted with an unlisted HCPCS (Level I, a.k.a., CPT, and Level II, alpha-numeric codes) code.

Policy Statement

Some services or procedures provided by practitioners might not have a specific HCPCS that adequately describes the procedure or service. When submitting claims for these services or procedures, unlisted codes may be used.

Unlisted codes are identified in part by one of the following terms in the HCPCS description:

- Not Otherwise Classified
- Unlisted
- Not Listed
- Unspecified
- Unclassified
- Not Otherwise Specified
- Non-Specified
- Not Elsewhere Specified
- NEC
- NOS

Unlisted codes should only be used if no code exists to describe the procedure, service, or supply. The most appropriate and specific unlisted code that reflects the procedure, service or supply rendered should be reported. For example, an oral drug is given (under the medical benefit) that does not have a specific code. Code J8499 (Prescription drug, oral, non-chemotherapeutic, NOS) would be more appropriate than submitting J3490 (unclassified drug).

When reporting an unlisted code, a complete narrative description of or identification of the service or item must be entered in the NTE segment of the electronic claim:

- 837P: Loop 2400, Segment NTE
- 837I: Loop 2300, Segment NTE

In addition, NOC drug codes require a valid NDC number.

If not included, Blue Cross will deny the claim and request the missing information.

Because unlisted and unspecified procedure codes do not describe a specific procedure or service, it is necessary to submit supporting documentation with the claim or upon request. Pertinent information should include:

- A clear description of the nature, extent, and need for the procedure or service.
- Whether the procedure was performed independent from other services provided, or if it was performed at the same surgical site or through the same surgical opening.
- Any extenuating circumstances which may have complicated the service or procedure.
- Time, effort, and equipment necessary to provide the service.
- The number of times the service was provided.

When submitting supporting documentation, identify the portion of the report (e.g. underline or highlight the entry) that identifies the test or procedure associated with the unlisted procedure code. Required information must be legible and clearly marked. Refer to the table below for documentation requirements.

Procedure Code Category	Documentation Requirements
Surgical Procedures	Operative or procedure report
Radiology/imaging procedures	Imaging Report
Laboratory and pathology procedures	Laboratory or pathology report; Genetic test codes for Commercial products refer to <i>Commercial Lab Path Services – 008 Genetic/Molecular Test Coding Reimbursement Policy</i> .
Medical Procedures and Behavioral Health Services	Office notes, chart notes and reports
Unclassified drug codes	Provide the National Drug Code (NDC) number or full description/name and strength of the drug and dosage.
Unlisted DME HCPCS codes	Provide narrative on the claim, Manufacturers Suggested Retail Price (MSRP).

Once the additional information is received, the claim will be reviewed. An unlisted procedure code will be denied if it is determined that an appropriate procedure or service code that more closely approximates the service performed is available.

Unlisted codes for DME, orthotics and prosthetics require the appropriate modifier to differentiate rental, purchase and repair or replacement of DME. Modifiers, otherwise, should not be appended to unlisted procedure codes, and may be denied if submitted.

No additional reimbursement is provided for special techniques/equipment submitted with an unlisted procedure code

Reimbursement for unlisted codes will be based on one of the following methodologies:

- 85% of the Average Wholesale Price (AWP) for drug codes
- 55% of provider's regular billed charge
- Invoice cost (reimburse drug/supply cost only)
- Allowance of similar code (procedure/item)
- Wholesale Acquisition Cost (WAC) for gene therapy drugs– refer to *Commercial General Coding-074- Cellular and Gene Therapy Products Reimbursement Policy*.

Compounded drugs

Multiple service lines are necessary to report a compound drug. One NDC is allowed per line. Report the HCPCS code (J7999) as a separate line for each associated NDC, or full description/name and strength of the drug and dosage.

For injections/infusions that involve multiple NDCs, bill the initial line with the HCPCS code, units and NDC with modifier KP (first drug of a multiple drug unit dose formulation). Bill the second, and any subsequent line item(s) of the same HCPCS code with modifier KQ (second or subsequent drug of a multiple drug unit dose formulation). If billing the same HCPCS code on more than two lines, the KQ modifier and an additional modifier are needed on each subsequent line. Also refer to *General Coding – 031 Home Infusion Reimbursement Policy*.

Documentation Submission

Documentation must identify and describe the services performed. If a denial is appealed, this documentation must be submitted with the appeal.

Coverage

Eligible services will be subject to the subscriber benefits, applicable fee schedule amount and any coding edits.

The following applies to all claim submissions.

All coding and reimbursement is subject to all terms of the Provider Service Agreement and subject to changes, updates, or other requirements of coding rules and guidelines. All codes are subject to federal HIPAA rules, and in the case of medical code sets (HCPCS, CPT, ICD), only codes valid for the date of service may be submitted or accepted. Reimbursement for all Health Services is subject to current Blue Cross Medical Policy criteria, policies found in the Provider Policy and Procedure Manual sections, Reimbursement Policies and all other provisions of the Provider Service Agreement (Agreement).

In the event that any new codes are developed during the course of Provider's Agreement, such new codes will be paid according to the standard or applicable Blue Cross fee schedule until such time as a new agreement is reached and supersedes the Provider's current Agreement.

All payment for codes based on Relative Value Units (RVU) will include a site of service differential and will be calculated using the appropriate facility or non-facility components, based on the site of service identified, as submitted by Provider.

Coding

The following codes are included below for informational purposes only and are subject to change without notice. Inclusion or exclusion of a code does not constitute or imply subscriber coverage or provider reimbursement.

CPT/HCPCS Modifier: KP KQ
ICD-10 Diagnosis: N/A
ICD-10 Procedure: N/A
CPT/HCPCS: Refer to [Appendix](#)
Revenue Codes: N/A
