Training Webinars for New Medical Drug Vendor, MagellanRx Management, a Prime Therapeutics Company

Blue Cross and Blue Shield of Minnesota and Blue Plus (Blue Cross) published **Provider Bulletin P41-24, Change to Management of Medical Specialty Drugs** introducing a new relationship with MagellanRx Management, a Prime Therapeutics Company (Prime/MRx).

Prime/MRx will manage a new process for reviewing and approving certain specialty drugs for dates of service beginning August 1, 2024. To help providers better prepare for this new program, online training is being offered. Understanding the new procedures will help ensure that prior authorizations and claims are processed promptly and accurately.

Join us for a 60-minute, web-based training session presented by Prime/MRx and become familiar with:

- Policies and procedures for this new program.
- Drugs provided under the medical benefit that will require prior authorization.
- Process to complete prior authorization requests.
- Where to view the status of prior authorization requests.

Please take advantage of this learning opportunity!

It is recommended that providers reserve a spot in one of these education sessions at least one week ahead of time. A registration confirmation email will be sent from Prime/MRx for the selected webinar session, including instructions for dialing in by phone, if needed.

Date	Time	Registration link
Tuesday, July 16, 2024	8 a.m. (Central Standard Time)	https://bit.ly/BCBSMN1
Tuesday, July 16, 2024	12 p.m. (Central Standard Time)	https://bit.ly/BCBSMN2
Wednesday, July 24, 2024	8 a.m. (Central Standard Time)	https://bit.ly/BCBSMN3
Wednesday, July 24, 2024	12 p.m. (Central Standard Time)	https://bit.ly/BCBSMN4

You only need to attend one of the above educational sessions.

A recording will be available on Availity Essentials Resources: <https://bcbsmn.availitylearningcenter.com/catalog>.

Providers will be able to begin requesting prior authorizations via phone or web beginning July 25th, 2024, for dates of service on or after August 1, 2024. Authorizations currently approved will be honored through the validity end date.

Products Impacted
