The eye exam benefit is covered by the Blue Cross Vision plan. This eye exam is separate from benefits provided in a health plan.

\*Your plan covers a wide variety of lenses. Be sure the lenses you choose are covered by your plan. You'll have to pay the full cost for lenses your plan doesn't cover. Your eyecare/eyewear provider can assist you with this, or you can contact customer service at the number on your vision member ID card.

\*\*Davis Vision Exclusive Collection available at many participating independent provider offices. Collection is subject to change.

\*\*\*Additional discount not available at Costco, Walmart, Sam's Club or at participating online retail providers.

†Available at many participating independent provider offices. Collection is subject to change. Boxes must be ordered as part of a single transaction.

††Available at participating retail providers.

†††Visually required (also known as medically necessary) means that optimal visual correction cannot be achieved with prescription eyeglasses but can be achieved with contact lens wear. Conditions that may commonly justify visually required lenses include keratoconus, anisometropia, aniseikonia, high astigmatism, pathological myopia, post-traumatic disorders, aphakia, aniridia, and certain corneal conditions.

**This plan provides vision coverage only. Your vision plan's benefit booklet will contain more details on standard plan exclusions and frequency limitations. In the event of a discrepancy, the benefit booklet will supersede this summary.**

Davis Vision is an independent company providing vision benefit management services and access to their network. Each provider in the network is an independent contractor and is not our agent. If you receive services from a nonparticipating provider, you will be responsible for the difference between what Blue Cross will reimburse and what the provider bills.
